

# OKABE

OKABE CO., LTD. manufactures and sells processed agricultural and marine products. Our products are noted as healthy food products. Especially, seasoned small fish products contain a large amount of calcium.

We carry out all processes in-house, from product development to manufacturing.

For quality assurance, we have obtained international certifications such as FSSC22000, ISO9001 and HACCP. We have built a consistent system from manufacturing to sales in accordance with these international standards.

We can provide you with safe, secure, healthy and delicious foods.

## SEASONED SEAFOOD

Sardine, Crab, Seaweed, and more.

We manufacture a large number of processed foods using these marine products as raw materials. It ranges from commercial products to retail products.
